## Work History

**Thackway McCord (2015-ongoing)**
Numerous projects, ranging from full site relaunches to internal design and web guidelines. Worked closely with various designers and clients. Although numerous people are involved throughout the projects, Adam remains the sole developer. Most recent projects include: Storyful.com, Cowen.com, YRisk.com, and TM's own site, thackwaymccord.com.

**Electric Orange (2011-ongoing)**
Projects for clients include Wordpress development, template building, shop creation and management (Shopify, Volusion, Wordpress), and web-based design work. Recent projects include NomadAlliance.com, MichaelMarkiewicz.net, and Boutiqueplusswim.com.

**Ars Nova (2009-ongoing)**
Began with a relaunch built for Joomla, then progressed in 2013 as a Wordpress-powered site with an updated design. Frequent projects include special event sub-sites as well as ongoing development for current and upcoming shows.
